THIRD ASST. SECRETARY TO GOVERNMENT
21 SEP 1951
DEVELOPMENT DEPARTMENT

Industries and Commerce Department. 103903

From:
SRI M.T. RAJU BAR-AT-LAW, I.C.S.,
Director of Industries and
Commerce, Cathedral P.O.,,
M A D R A S.6.

To:
The Secretary to Government,
Development Department,
Fort St. George,
M a d r a s.9.

No.4085/D1/51 dt. 12;9:1951.

Sir,

Sub: Government Silk filatures- Kollegal- Installation of another set of 12 handlooms-

Ref: G.O.Ms. No.3419 Development Dated 25/6/1948.

The experimental weaving section consisting of 12 handlooms sanctioned in G.O.Ms. No.3419 Development Department dated 25.6.1948 and installed in the Government Silk Filatures, Kollegal has been working satisfactorily from its inception in 1947-48 as may be seen from the Statement below:--

Year.	Production of silk fabrics.	Sale of Silk Fabrics.	Net profit as shown in audit reports.
1947-48.	1958 3/4 yards.	1053 yards.	Rs. 1249
1948-49.	5557 1/2 yards Kerchief 1629 Nos.	3557 yards 1201 Nos.	Rs. 4252
1949-50.	Fabrics 5246 yards Kerchiefs 183 Nos.	3728 yards.	Rs. 1969
1950-51.	Fabrics 2151 yards Kerchiefs 216 Nos. National flags. 19 Nos.	4056 yards 248 Nos. 7 Nos.	Rs. 1739
		Total:	Rs. 9209

2 The quality of the fabrics produced is appreciated by the public and the demand for the fabrics has been growing. In order to cope with the increased demand for our fabrics, the Sericultural Expert has proposed ~~10~~ installations of handlooms with latest Dhoby arrangements ~~and the charges additional~~.
In this connection, I wish to point out that the proposals for the installation of 20 power looms are under consideration of Government vide Government Memorandum No.104972/M1/49-13 Development dated 11th April, 1951. The Sericultural Expert has pointed out that even after the power looms are installed, it will still be necessary to continue working the handlooms as certain varieties of silk fabrics have to be produced on handlooms only because of the special nature of border designs etc., required now-a-days. The cost of the proposed additional 12 handlooms has been estimated at Rs. 3350/- only.

3 An estimate of the recurring expenditure for working the 24 handlooms which comes to Rs. 1,30,700 is enclosed herewith. The production of fabrics per annum is expected to be 12,000 yards and as the sale price will be fixed on the basis of the cost of production plus 0-8-0 per yard to provide for profit etc., as approved by Government in the G.O. cited, there will be a net profit of about Rs. 6000/- per annum.

4 I agree with the Sericultural Expert that it is highly desirable to expand the experimental handlooms weaving section

/p.t.o/

at the Government Silk Filatures, Kollegal and accordingly request that Government may be pleased to sanction an non-recurring expenditure of Rs. 3350/- and a recurring expenditure of Rs. 1,30,700/- for the installation of 12 more handlooms with Dhoby arrangements at the Government Silk Filatures, Kollegal. The recurring expenditure is inclusive of the cost of silk valued at Rs. 77,485--8--0 which will be taken from the stock in the filatures but as no payment will be involved, the actual expenditure will be only (Rs. 1,30,738--13--4 — Rs. 77,485--8--0) Rs. 53,253--5--4 only. I request very early orders of Government sanctioning the proposals.

The expenditure may be debited to:

"43.A. Capital Outlay on Industrial Development-
A. Investment in Government Commercial Undertakings-
C. Government Silk Filatures, Kollegal."

for Director of Industries & Commerce

MNG/16.9.
(Enclosure:One).

ESTIMATE OF EXPENDITURE FOR THE MAINTENANCE OF 24 HANDLOOM FOR A PERIOD OF ONE YEAR.

Raw silk. 20/22 or 24/28 silk.

Quantity of organzine silk to be consumed for 24 looms -68 lbs. per month - for one year 68 x 12-816 lbs.
Cost of 816 lbs. at Rs. 41/- Rs. 33,456-0-0

Quantity of tram silk to be consumed for 24 looms 98½ lbs. per month- for one year 98½ x 12 - 1,182 lbs.
Cost of 1,182 lbs. at Rs.37-4-0 per lb. Rs. 44,029-8-0

---------- Rs. 77,485--8--0

EXPENDITURE ON BLEACHING SILK.

Organzine silk ..	816 lbs.
Tram silk. ..1182	lbs.
Total:	1998 lbs.

Soda ash 8% of 1998 lbs. at Rs.0-1-10 per lb,	160 lbs.	Rs. 18-5-4
Soap 12% of 1998 lbs. at Rs.1-4-0 per lb.	240 lbs.	Rs.300-0-0
Fuel 1 maund for 5 lbs. at Rs. 0-4-6 per maund.	400 lbs.	Rs.112-8-0
Coconut oil 1/8 lb. for 5 lbs. i.e. 50 lbs. at Rs.1-4-0 per lb.		Rs. 62-8-0
Gum 1/4 lb. for 5 lbs. at Rs.1-4-0 per lb.	100 lbs.	Rs.125-0-0
		----------Rs. 618--5--4

SALTA WINDING CHARGES.

For 1,500 lbs. of bleached weight at Rs. 2/- per lb. Rs. 3,000--0--0

SUPERVISION CHARGES:

No. of pieces to be produced 32½ pieces per month- for one year 32½ x 12 - 390 pieces at Rs.0-8-0 per piece. Rs. 195--0--0

MAINTENANCE CHARGES:

Quantity of silk fabrics to be produced per month 1000 yds- for one year 12,000 yds at Rs. 0-2-0 per yard. Rs. 1,500--0--0

C.O. Rs.82,798--13-4

/p.t.o/

B.F. Rs. 82.798--13--4

WEAVING CHARGES:-

Estimated production of-
piping border sarees- Self mundani
144 pieces per year at Rs.65/-per piece. Rs.9,360-0-0

1" Lace border sarees- Self-mundani
36 pieces per year at Rs. 70/- per peice. Rs.2,520-0-0

2" lace border sarees- self mundani- 24 pieces per year at Rs. 75/- per pieces per year Rs.1,800-0-0

3" lace border sarees- self mundani- 24 pieces per year at Rs. 120/- per pieces Rs. 1,920-0-0

3 Shuttles weaving sarees- self mundani 12 pieces per year at Rs. 120/- per piece. Rs. 1,440-0-0

Crepe sarees- self mundani-24 pieces for one year at Rs. 65/- per piece. Rs. 2,040-0-0

Tafetta sarees- self mundani 36 pieces per year at Rs. 65/- per piece. Rs. 2,340-0-0

Plain white and coloured shirting 48 pieces per year at Rs.30/- per piece. Rs. 1,140-0-0

Plain white upper cloths 24 pieces per year at Rs.25/- per piece. Rs. 600-0-0

54" Dhoties plain and laced 18 pieces per year at Rs. 40/- per pieces. Rs. 720-0-0

24,180--0--0

GOLD LACE.
Cost of 312 marcs per year at Rs. 75/- per marc. 22,400--0--0

DYE STUFF.

At 4% on the consumption of silk i.e. 80 lbs at Rs.17/- per lb. 1,360--0--0

Total Rs. 1,30,738-13--4
OR
1,30,700--0--0

Memorandum No. 103903 M.I/51-1 dated 16-X-51

INDUSTRIES - Sericulture - G.S.F., Kollegal Installation of another set of 12 handloom

From the D.I.& C. No.4085/DI/51 d.12.9.51.

The estimates submitted by the D.I.&C. in his letter No. 3889/D/47 dated 23-12-48 provided for the production of 6480 yards of silk fabric a year on 12 handlooms. The production during 1948-49 was 5517½ yards of fabric and 1629 kerchiefs. This fell to 5246 yards of fabric and 183 kerchiefs during 1949-50 and again to 2151 yards of fabric, 216 kerchiefs and 19 national flags during 50-51. The D. I. & C. is requested to report in detail before 15-11-51, why the production did not reach the original estimate in any of the years, why there has been progressive fall in the production year after year, and why kerchiefs, an item not included in the original proposal and for which there could have been very little demand, were manufactured in such large numbers. The Dir.

2. The Dir. is requested to send representative samples of various varieties of fabrics produced in the weaving section with details of their cost, their selling price and the prevailing market rate for similar fabrics.

3. In G.O.No.3076, Devt. dated 7-6-49 sanction was accorded to the continuance of the weaving section for a further period of one year. The D.I.&C. is requested to report whether sanction of Govt. for continuance from 7-6-50 has been obtained and, if not, why sanction was not obtained.

4. The estimate of recurring expenditure for working 24 handlooms is Rs.130700 a year. The D.I.&C. is requested to report why he has applied for sanction of Govt. for a recurring expr of Rs.

2 10

30700 a year for the installation of only 12 additional handlooms. P.S.C.F.

5. The Dir. is also requested to report the length and breadth of one piece of silk fabric mentioned in the estimate and its weight. It is usual for the silk cloth manufacturers to add extra profit for the lace utilised in the silk fabrics. The Dir. is requested to ascertain the practice among the silk cloth manufacturers and submit separately suitable proposals on this point for consideration of the Govt.

THIRD ASST. SECRETARY TO GOVERNMENT
DEVELOPMENT DEPARTMENT
8 DEC 1951

Sir, Lr.No.4035 D 1/51 dated 1-12-1951. 133188

Sub: Industries - Sericulture - Govt. Silk Filature- Mallegal- Establishment of another set of 12 handlooms.
Ref: Government Memo.No.10303 AI/51-1 Development dated 16-10-51.

pp 9-10 above

The particulars called for in the Government memo cited above are furnished below seriatim

Para 1 of the Government memo:-

It was originally proposed to utilize 8 looms for weaving plain fabrics and the remaining four looms with dobby arrangements for weaving other varieties. The total production envisaged was 6480 yards. Subsequently it was found that the demand for the plain fabrics was very limited while the special varieties were very much in demand. Accordingly the production was changed over mostly to special varieties, curtailing the weaving of plain fabrics. For this purpose a foreman of the Government Silk Filature was deputed to the Textile Institute, Madras and to Kancheepuram vide G.O.No. 1397 dated 6-4-50. Consequent on the production of costlier varieties with designs, the value of sales effected has progressively gone up during the last 3 years as shown below even though the production in terms of yards has gone down.

p3 (q)

D in order to study the latest type designs

Year.	Value of sales effected.
1948-49	Rs.26,355/-
1949-50	31,941
1950-51	40,037/-

As regards the manufacture of hand kerchiefs, I submit that they were not manufactured separately on the looms but they were made from plain cloth woven from looms and that the total production was not therefore affected by this line of manufacture. There was demand for silk hand kerchiefs and the entire stocks of kerchiefs has been sold out quickly.

Para 2 of the Government memo:-

Kodi Sel-match, leaflet

I enclose herewith 44 samples of the silk fabrics manufactured out of the 12 hand looms, indictating therein their selling rates. I furnish herewith also a statement showing the various kinds of silk fabrics woven, with their costs of production, selling prices and prevailing market rates.

× p15 below

Para 3 of Government Memo:

pp9-10 of (P)
p3 (U)
& pp1-3 above

Subsequent to the sanctions accorded by Government, for the continuance of the weaving section in G.O.No.3076 Development dated 7-6-49, further continuance for a period of one year was sanctioned by Government in G.O. No.3982 Development dated 11-7-50. As regards the continuance from 1-4-51 proposals were submitted for working the existing 12 hand looms well as 12 additional looms in his office Letter No.4085-D 1/51 dated 12-9-51. I am however submitting proposals, separately, for the continuance of the existing weaving section from 1-4-51.

p.t.o.

Para 4 of the Government Memo:

I submit that in para 3 of this office letter No.4035 D.1/51 dated 12-9-51, the recurring expenditure for working all the 24 hand looms was correctly stated as Rs.1,30,700/- but in para 4 of the letter it was erroneously stated as '12' looms. I may reiterate that the estimate of recurring expenditure viz. Rs.1,30,700/- is for working all the 24 hand looms., i.e. 12 existing and 12 additional.

Para 5 of the Government Memo

The length of the silk fabrics woven at the Government Silk Filature, Kollegal ranges from 31 to 31½ yards, with a width of 45" for all the types of shirtings and sarees. The weight of the various categories of fabrics is furnished below:-

	Lsb. Oz. to	lbs. Ozs.
1. Plain white and coloured shirtings upper cloths plain.	9--8	3----10
2. ½" piping border laced sarees	3--10	3--12
3. 1" laced sarees	3--12	3--14
4. 2" laced sarees	3--14	4---2
5. 3" laced sarees	4--4	4--8
6. 3 shuttle weaving laced sarees	5--0	5--8
7. Crepe sarees ½" piping borders	3--15	4--0
8. Tafetta sarees ½" piping border	3--8	3--12
9. 54" Plain Dhoties	4--0	4--4
10. 54" -do- -do- (laced)	4--6	4--8
11. 29" to 30" width coating cloth	4--12	5--0

The private manufacturers generally charge an extra profit for the lace utilised in the silk fabrics but it is ascertained that such a levy of extra profit on laced fabrics will depend chiefly upon the market conditions as the competition in the field is very keen. In regard to the fabrics manufactured at the Government Silk Filature, Kollegal, I submit that the Raw Silk used is of filature grade which is costlier than the charka silk used generally by the Handloom Weavers. It is therefore difficult to compete in the market if a further charge is added to the cost of Fabrics on account of the Gold Lace used. At present, a profit of annas eight per yard is added to the overall actual cost of production which, I feel, is reasonable in the existing market conditions. The question of adding extra profit on laced fabrics will however be considered at a later stage when the production of silk cloth increases and when more buoyant market conditions prevail.

32.	533	29" width coating white cloth	11-1-0	11-9-0	

Please see footnote below

N.B. 1. The above fabrics have all been woven in superior grade of filature raw silk and the best quality of gold lace. These sarees have the self mundani i.e. the border design of the saree is repeated in the mundani.

2. The price list of various shirtings and the sample shirting cloths along with the samples of silk sarees etc. are herewith enclosed.

3. The prevailing rates for similar fabrics if manufactured out of filature grade raw silk in handlooms will be more or less same as our rates. But, in case foreign silk is used for warp and charka grade silk for weft or if charka grade silk is used for both warps and weft as in Conjeevaram, the market price will be Rs.1/- to Rs.1-8-0 per yard less than our rates.

Dev. (MI) Dept.

PART II SCHEME for 1952-53.

Sub: Industries - Cericulture - Government Silk Filatures, Kollegal - Installation of another set of 12 handlooms.

EXPLANATORY NOTE.

In June 1948 the installation of an experimental weaving section with 12 handlooms at the Government Silk Filatures, Kollegal for the production of silk fabrics was sanctioned by Government for a period of six months in order that all the twisted silk yarn produced on the twisting machine in the Filatures could be consumed in the filatures itself. In February 1949 the D.I & C., reported that the weaving section had earned good profit and that there was Keen demand for silk fabrics and suggested that the weaving section may be made permanent. The Government considered that its permanent retention should be examined after some time and sanctioned the continuance for a further period of one year. The D.I & C. has now reported that the section has been working satisfactorily, and has also earned profits of Rs.1249, Rs.4252

and Rs.1739, during each of the years from 1947-48 to 1950-51 respectively and that the quality of the fabrics is appreciated by the public. In order to meet the growing demand he has now submitted proposals for the installtion of another set of 12 handlooms in the Government Silk Filatures, Kollegal. It is stated that as certain special varieties of fabrics mainly worn by Indian women can be produced on handlooms only, the continuance of the handloom section is necessary even after the installtion of powerlooms sanctioned recently in September 1951. The cost of 12 handlooms is estimated at Rs.3350/- and the recurring expenditure including charges for bleaching, winding and dyeing and weaving cost of gold lace and dyes at Rs.26,625 per annum. A net profit of Rs.3,000 per annum is expected. The installation of power twisting plant in the filatures is fast progressing. Additional handlooms are immediately necessary to consume the twisted raw silk which will be produced soon in large quantities. The fluctuation of the raw silk market is often sudden. It takes some two or three months to convert raw silk into silk fabrics and while there is a good and steady demand for specialised handloom fabrics, the market for ~~raw silk fabrics does not fluctuate in response to raw silk market and~~ but is steady. The risk involved in selling raw silk produced in the filatures will therefore be minimised, while the investment involved is small is secured by a fair margin of profit by the installation of additional 12 looms. The filatures with the twisting plant and the handlooms form one complete unit. In the circumstances this Department have accepted the proposal of the D I & C. Finance have agreed. It is proposed to make necessary provision in the Budget for 1952-53 as indicated in the Budget proposals.

Development Department.

T II SCHEME FOR 1952-1953.

of fabrics mainly worn by Indian women can be produced on handlooms only, the continuance of the handloom section is necessary even after the installation of powerlooms sanctioned recently in September 1951. The cost of 12 handlooms is estimated at Rs.3,350/- and the recurring expenditure including charges for bleaching, winding, dyeing and weaving cost of gold lace and dyes at Rs.26.625 per annum. A net profit of Rs.3,000/- per annum is expected. The installation of power twisting plant in the filatures is fast progressing. Additional handlooms are immediately necessary to consume the twisted raw silk which will be produced soon in large quantities. The fluctuation of raw silk market is often sudden. It takes some two or three months to convert raw silk into xx silk fabrics xxxxx while there is a good and steady demand for specialised handloom fabrics. The risk involved in selling raw silk produced in the filatures will therefore be minimised while the investment which is small is secured by a fair margin of profit. The filatures with the twisti plant and the handlooms form one complete unit. In the circumstances this Department have accepted the proposa of the Director of Industries and Commerce. Finance have agreed. It is proposed to make necessary provision in the Budget for 1952-53 as indicated in the summary above.

A

*Remarks of the S.F.C.

No.12 - The continuation of the existing scheme without additional staff was agreed to in principle. A full report should be submitted urgently indicating the cost for the continuance alone without providing for additional staff, etc.

No.51 - It should be considered as a general question whether half the cost of the expenditure now incurred by the Government on the organisation and supervision of jaggery manufacturing cooperative societies throughout the State may not be recovered by levying a cess which will be included in the cost of production.

No. 53 - Instead of a grant, a special interest-free loan may be given to be repaid within a period of 10 years. The society should be required to contribute anually to a Sinking Fund for this purpose.

Dev(G) p.t.o.

Subjects for perusal. The decision of the Cabinet may be awaited.

G.O. Ms.No. 3439 dated 8-8-52

The Governor of Madras approves the proposal of the D.I. & C. for the installation of an additional set of 12 handlooms with dhoby arrangements at the experimental weaving section of the Govt. Silk Filatures, Kollegal. last Continued in G.O. No Ms 341 Devt dated 30-1-1952.

2. Sanction is accorded to a non-recurring expenditure of Rs. 3400/-(Rupees Three thousand Four hundred only) towards the purchase of 12 handlooms and to a recurring expenditure not exceeding Rs. 26,626/-(Rupees Twenty six thousand Six hundred and twenty six only) per annum towards charges for bleaching, winding, dyeing and weaving etc. as detailed in the annexure to this order.

3. The expenditure should be debited to '72. Capital outlay on Industrial Development-G. Govt. Silk Filatures".

4. Necessary provision has been included in the Budget for 1952-53 under the appropriate head of account.

5. The silk fabrics manufactured out of the handlooms at the experimental weaving section, samples of which were furnished to the Govt. by the D.I.& C. with his letter dated 1-12-51, show that the gold thread design in some fabrics are generally not up to date, that designs Nos P.380 and P.514 are definitely bad, that some designs do not give solid appearance as the gold thread is loose in many places and that in some designs the gold thread appears dim and old and that colours of the fabrics are not very attractive. The Govt. consider

it essential that the manufacturing section should ~~be~~ kept in close touch with the changing ~~testes~~ tastes in designs of the consuming public. The D.I.& C. is therefore requested to take steps to rectify these defects and to issue instructions to increase the production of sarees with borders and mundani in a colours different from that of the body and sarees with Bangalore and Surat Mundanis which are much in demand.

C.No. 10390-3 MI/51.

Dev. (MI) Department.

Sub: Industries - Sericulture - G.S.F. Kollegal - Installation of another set of 12 handlooms.

Ref: From the D.I&C., No.4085/D1/51 dated 12-9-51 and 21-12-51.

To A.S.

Current file may be perused.

In G.O.Ms.3419 Dev. dated 25-6-48, an experimental weaving section with 12 handlooms was sanctioned by Government for a period of 6 months in order that all the twisted silk yarn produced on the twisting machine could be consumed in the filature itself. An expenditure of Rs.28250 for its maintenance was also sanctioned. It was also ordered that the selling price should be fixed so as to cover the cost plus 8 annas a yard.

In February 1949 the D. I & C. reported that the weaving section had earned good profit and that there was a keen demand for silk fabrics and suggested that the weaving section might be made permanent. The Government considered that its permanent retention should be examined after some time and sanctioned the continuance of the weaving section for a further period of one year. In March 1950 the D. I & C., proposed the continuance of the weaving section till 31-3-51 on the ground that it would enable imparting training to the staff and labour which would be of great use when twisting plants sanctioned come into operation. No sanction has so far been accorded for the continuance of the section from 1-4-51. The D. I & C. has reported that the section has been working satisfactorily since its inception and has earned a net profit of Rs.1249, Rs.4252, Rs.1969 and Rs.1739 during each of the years from 1947-48 to 1950-51 respectively that the quality of the fabrics is appreciated by the public and that the demand has been increasing. In order to meet the growing demand he has now submitted proposals for the installation of another set of 12 handlooms in the G.S.F. Kollegal. It is stated that as certain special varieties can be produced on handlooms only the continuance of handloom section

section is necessary even after the installation of powerlooms sanctioned. The cost of 12 handlooms is estimated to be Rs.3350/- and the recurring expenditure in working the 12 handlooms at Rs.26,626-10-8 per annum. A net extra profit of Rs.3000/- is expected. The D. I & C. who was asked to report why the production of silk fabrics did not reach the original estimate of 6480 yards a year in any of the years, and why there has been a fall in the production year after year, says that the production was changed over from plain fabrics to special varieties, as the latter were very much in demand that the production of special varieties in terms of yards has therefore gone down while the value of sales has gone up, the increase being from Rs.26,355 in 1948-49 to Rs.40.037/- in 50-51. He has also enclosed 44 samples of the silk fabrics manufactured out of the 12 handlooms. They are placed in the cover below. The selling rates of the samples are given in the statement at p.15 c.f. It is stated that the market rates for similar fabrics woven out of Japanese or Charka silk are Re. 1 to Rs.1-8-0 per yard less than our rates. The D. I & C. reports that private manufacturers generally charge an extra profit for the gold thread utilised in silk fabrics and that in regard to our fabrics the charging of such extra margin of profit is not possible as the silk used in our fabrics is costlier and as it would be difficult to compete in the market if extra charge is added. The sample fabrics show the following defects. The gold thread design in some fabrics are generally not uptodate. Some designs are definitely bad. Please see samples P.No.380, P.No.514, Temple Border below P.No.436. Some designs do not give solid appearance as the gold thread is loose in many places. The gold thread in some places has not been replaced. In some designs the gold thread appears dim and old. The colours of the fabrics are not very attractive. Sarees with borders and mundani in a colour different from that of the body are much in demand. The production of such sarees may be increased. Sarees with self mundanis only are being produced.

Sarees with Bangalore and Surat Mundanies may also be produced. For orders whether the D.I & C. may be asked to improve the production on the above lines and whether the D. I & C's proposal for the installation of 12 additional handlooms may be sanctioned. The remarks of Finance may be invited.

Dev.No 103903 MI/St.-2
19-12-51.

Finance(Exp.B.)Department

The notes on pp.1-3 above may be perused.

2. The D.I.&C. has proposed the purchase of 12 additional handlooms for the weaving section of the Government Silk Filatures Kollegal which was started in 1948 as an experimental measure and which is being continued year after year since then. The proposal has been made with a view to meeting the increase in demand for the fabrics produced at the Government Silk Filature Kollegal. The cost of 12 handlooms is estimated at Rs.3350. The recurring cost of working 12 additional handlooms is estimated at about Rs.26625/- per annum excluding the cost of silk. The net extra profit anticipated is Rs.3000 p.a. Development support the proposal. They also propose to ask the D.I.&C. to improve the designs, etc., of the fabrics on the lines suggested at K on pp.2-3 above.

3. As the weaving section is reported to be working satisfactorily and as it has been earning some profits since its inception, this Department may agree to the proposal to purchase 12 additional handlooms for the weaving section. ~~Now schemes of this kind should however be ordinarily brought forward as Part II schemes. In view of the critical ways and means position of the Government, the Cabinet has also decided that no new schemes should be considered for introduction in the current year.~~ Finance may ~~therefore~~ advise that the present proposal be brought forward as a Part II

scheme for 1953-54, as it is too late now to consider it as a Part II scheme for 1952-3.

11.12.51 ref 3/12/51

(The D/C has suggested that the expenditure might be debited to 43A- Capital outlay on industrial development - a.C. Govt Silk Industries, Kollegal. There is no provision in the current year's budget under this head. It would seem better to debit the expenditure to "72. Capital outlay on Industrial Devt." where a sanction of about Rs 7 lakhs has already been accorded.)

Govt 8.1.52

DDS 9/1/52

JD/1/AS 9/1/52

The present market conditions in regard to the silk industry are fluctuating. It may be that the Govt product will have to face serious competition with private manufactures & imports during next year. — cf A on p. 2 above. It is therefore desirable to watch the position for some time before additional looms are installed at Kollegal. The matter may be reviewed early in 1953. For the present, it would be sufficient to accord sanction for the continuance of the weaving section during 1951-2 & 1952-3 (⊗) on the existing basis — cf B on p. 1 above. The D.I.C. may also be asked to take steps to improve the quality & design of the saris manufactured at Kollegal as suggested by Govt

(⊗ In the limited life, it is proposed to accord sanction for only 1952-3 as the year is coming to an end. It is desirable to accord sanction for 1952-3 also now.)

10.1.52

Since the Capital expenditure involved is small, we may let this go forward as Part II ~~in 5.T.~~ for 52-53. We may accept the part II note as an exceptional case.

The recommendations of the S.F.C. in regard to the Part II Schemes for 1952-53 are on pp 29-30 C.F. It is seen that Scheme No 9 which is dealt with in this file has been recommended. The decision of the Cabinet may be awaited

GP. 28/6/52

(Govt. Fin. Dept. No. 35489/BR.4 (3)-6-52)

Notes from p. 1 above may be read.

At its meeting held on the 2nd and 3rd June 1952 the Cabinet has, among others, ratified the scheme for the installation of an additional set of 12 handlooms at the Govt. Silk Fillatures, Kollegal, which has been treated as a Part II Scheme for 1952-53.

A draft order is submitted below for approval. It may be sent to Finance for acceptance The draft order will issue after the demand has been voted by the Legislature at its ensuing session.

p.t.o.

Attention is invited to the summary of costs as given on p. 17 c.f. portion marked 'M' on p. 18 c.f. and 'C' on p. 17 c.f. The exact amount of both under ultimate cost and under cost during 1952-53 recurring expenditure, is Rs. 26 626/- as stated at 'M' on p. 17 c.f. Finance may be requested to state whether ~~only a~~ provision of Rs. 16,000/- only has been included in the budget and if so to suggest suitable alteration to the draft order.

ADDL. SECRETARY TO GOVERNMENT
BR - 1952
4615
FORT ST. GEORGE

Finance (B.R.) Department

(Previous Finance notes on page 5 above).

Further notes and the draft order below may be perused.

In connection with the Part II proposal for the installation of another set of 12 hand looms in the Govt. silk filatures, Kollegal. the Director of Industries and Commerce ~~has~~ estimated the recurring cost on the total 24 hand looms as Rs. 53, 253. Based on this, the extra cost for the additional 12 hand looms will be Rs. 26,626 or Rs. 26,600 roundly. But, it is seen from the Part II scheme note on page 17 C.F., that the recurring cost on the proposal ~~amount~~ has been entered as Rs. 16,600 only ~~evidently by mistake. This figure was~~ also entered in the ~~classified list of Part II Schemes circulated to~~ the ~~S.F.C.~~ The ~~S.F.C and the Cabinet have recommended the proposal and a provision of Rs. 16,600~~ has accordingly been included in the B.E. 1952-53. This amount is however no objection being sanctioned as proper. ~~As the correct figure is~~ Rs. 26,600, ~~no modifications seems necessary to~~ the draft order ~~below~~. ~~XXXXX~~ If the D.I. & C. finds the provision made in the budget to be inadequate he will no doubt come up for ~~the sanction of~~ necessary additional funds in due course. (and they will be sanctioned) The draft order below
